Print the total of numbers that are divisible by 3 and 7, and between 1 to 2000.

6.قم بتحويل ال list التالية إلى نص باستخدام While لتحصل على الناتج التالي (سنقوم بعمل شيء مشابه لما قام به المطورون الذين طوروا join string method)

Make the following list into one string using while, to get the following output. (Your own implementation of join string method)

nums = [1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29]

#output "1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29"
